Scooter Storage

Scooter Racks

We have designed a scooter storage rack which is easy to install and extremely simple to use.

We have done away with the traditional chain and peg securing method, and replaced it with a simple integral sliding bar. This makes this scooter rack ideal for schools, nurseries and play centres.

The advantage of this rack is there are no pegs to lose or chains to break.

This rack provides the perfect storage solution for scooters, which is both secure and compact

- o Available in a variety of configurations and capacities.
- o This scooter rack will accomodate from 10 to 20 scooters
- o Available in single sided or double sided options
- o Frame manufactured from mild steel, galvanised and Powder coated in a wide range of colours.
- o Can be installed as a freestanding installation or against a wall.
- o can be secured with a simple padlock
- o Supplied with base plate predrilled to allow the rack to be bolted to the ground
- o Requires only four ground bolt fixings
- o Groundworks and complete installation service available
- o Custom built in a size to suit your needs
- o compact solution to health and safety trip hazzards

Free, No Obligation site surveys and quotations available on request.
